

Equipment Water Damage NOW! Use LPS 1[®] Premium Lubricant To Keep Your Business Afloat

Every year, water from flooding and hurricanes wreaks havoc on business equipment across many U.S. and Canadian regions. But, it doesn't mean your equipment has to suffer.

LPS 1[®] saves potentially water-damaged equipment by penetrating and displacing water allowing a faster start-up. Plus, it cleans, lubricates, and continues to provide greaseless protection that resists dust or dirt.

LPS 1[®] contains no harmful chlorinated solvents, so it's safer to use on paint and plastics. The higher flash point of 175°F TCC (79°C) provides an extra degree of safety in the industrial work place.

USE LPS 1[®] TO HELP SAVE & PROTECT

- Air conditioners
- Appliances
- Automatic Chokes
- Electronic Equipment
- Gauges
- Ignition Systems
- Locks and Hinges
- Micrometers
- Nuts and Bolts
- Office Machinery
- Outdoor Outlets
- Precision Tools
- Robotics
- Wiring Contacts

MECHANICAL PARTS

Use LPS[®] cleaners to remove heavy dirt and sludge, then flush equipment with LPS 1[®] to displace moisture and inhibit short term corrosion. Restart immediately.

ELECTRICAL PARTS

Spray electrical parts liberally with LPS 1[®] to remove water and contaminants. LPS 1[®] cleans, lubricates, and protects delicate mechanisms. Allow to dry overnight before start-up. LPS 1[®] has a dielectric strength of 32 kv.

LPS 1[®] IS AVAILABLE IN THESE SIZES:

Net Fill	Part No.
11 oz. (312 grams) Aerosol	00116
1 gal. (3.78 liters)	01128
5 gal. (18.93 liters)	00105
55 gal. (208 liters)	00155
20 fl. oz. (591 ml.) Trigger spray	00122

FOR WATER DISASTER RELIEF

Use Industrial and Electrical Products

STEP 1: Displace Moisture

Yes → **LPS 1[®] Premium Lubricant**

Do you need to displace moisture and provide short term corrosion protection?

STEP 2: Clean Equipment

Yes → **PreSolve[®] Orange Degreaser**

Are you removing heavy grease and sludge?

Yes → **Precision Clean Multi-Purpose Cleaner/ Degreaser**

Are you removing soil and dirt?

Yes → **NoFlash[®] Electrical Cleaner**

Are you removing light oils and dirt from electrical/ electronic parts?

STEP 3: Protect Flooded Equipment

Yes → **Is your equipment electrical/electronic?** → **Yes** → **LPS 1[®] Premium Lubricant**

Is your equipment used indoors?

No

LPS 2[®] Heavy-Duty Lubricant

Yes → **LPS 3[®] Premier Corrosion Inhibitor**

Is your equipment used outdoors?
